## Introduction to Photoshop

### 6-Week Course

---

This course is an introduction to the computer program Adobe Photoshop, and covers an overview of fundamental features to enhance and retouching images, such as resizing images for website or print, understanding resolution, editing for enhancement and cropping. You will also work with images in Adobe Illustrator where appropriate. This course emphasises the systematic exploration of processes and the acquisition of basic technical skills for editing images and additional skills such as working with layers and layer selections to create photomontages and masking/clear cutting to remove backgrounds and adding text. Over the 6-week period you will become familiar with Adobe Photoshop, and at completion be at an intermediate level.

**Dates:**

Starting from June 19th for 6 weeks. Tuesdays, 5.30 – 8.30pm.

**Cost:**

\$280

**Location:**

Wintec (City Campus)

**RSVP:**
